

Ratepayers Meeting Silver Lane S. D.

Meeting of ratepayers in Silver Lane School house to decide about scheme for a doctor, the petition for this having been scheduled for consideration by the Council of Battle River on Thursday, April 14th, 1932. The following people being present: Mr. T. Berreth, Mr. Ray Bronson, Mrs. Ray Bronson, Mr. and Mrs. Ray Bronson, Mr. T. Bronson, Mr. J. Bell, Mr. G. C. Capp, Mr. P. Harvey, Mr. C. Reid, Mr. T. P. Richmond, Mr. C. Riley, Mr. W. Smith, Mr. H. Speckman, Mr. W. Tomlinson, Mr. D. S. West, Mr. F. West, Dr. McBride and Councillor C. Burrows of Huamha Municipality.

The meeting was called to order and nominations asked for chairman. Mr. C. Riley was nominated chairman and Mr. T. P. Richmond was elected secretary.

The chairman then called upon the secretary, who had called the meeting to state why it had been called and its purpose.

Mr. Richmond stated that the meeting was called, first to endorse our petition for a Municipal Doctor and second to amend the proposed contract to fit our needs.

Dr. McBride was then called upon to address the meeting. He stressed the need for cash to perform his business. His expenses were all cash, and the only means he could get cash was through Municipal Councils. He could force collections, but hated to have to do it, and as it would cost the Municipality no more under the scheme than without it, they might just as well have the scheme, give everybody the benefit and save a lot of trouble, and we all knew just where we were, and what our costs would be. Dr. McBride offered to refund their Doctor taxes to anyone who did not wish to come under the scheme, and if such required his services the same would be treated as private patients.

Councillor C. Burrows of Huamha, informed the meeting that the scheme was working well with them, and that that the expected cost would be about 2 mills, not more. Their total valuation \$1,656,750.00 and 146,095 acres. Cost of Doctor scheme \$3,000.00 per annum.

A copy of the Doctor's contract with the Huamha Municipality was then read by Mr. Richmond. A copy of our petition to the Municipality was also read.

Discussion followed to the effect that should any of us need a doctor, then a 2 mill rate was very cheap and should not hurt any of us. One suggestion that we should drop that scheme until things were better, that if we got a dollar and a quarter a bushel for our wheat, we could afford a Municipal Doctor, drew the report that we not then need the scheme, that it was now, when times were hard that we needed the more to co-

operate. Moved by T. P. Richmond, seconded by T. Bronson, that the Council set aside the vote of March 30th taken at Irma on the scheme for a Municipal Doctor for the Silver Lane S. D. because such vote was out of order, our petition being scheduled for consideration on April 14th. Moreover, notice of taking this vote had not been advertised by the Council in the Irma Times. Carried. No one voting in the contrary.

Discussion on endorsing our petition then followed. M. R. Riley was against it because of the extra tax, saying that they were taxed all we could carry.

Mr. Ray Bronson said it was a good scheme, especially in these hard times, and was one way in which we could all co-operate to our mutual benefit. Mr. Richmond pointed out that the Council already have two Doctor's bills contracted in the District this year, that will cost nearly half what the whole scheme would cost for a year, and we still have nine months to go. Compared with other things this scheme is very cheap, considering that a telephone cost \$30.00 per year, or compared with the School tax. Public health was more important than education, and its probable cost less than one fifth.

Moved by Mr. T. Harvey, seconded by Mr. Ray Bronson that we endorse our petition, and call upon the Council to pass by-laws and put into operation the scheme we have asked for. Carried. Only Mr. C. Riley on the contrary.

Requested by Mr. C. Riley that Council put into operation the scheme as quickly as possible that we may get the benefit thereof.

Moved by Mr. T. Berreth, seconded by Mr. T. Bronson, that all employed for wages in the district, and who will stand to benefit under the Municipal Doctor Scheme be required to pay a tax at the rate of three Dollars (\$3.00) per year to their employers. Carried unanimously.

Moved by Mr. T. Berreth and seconded by Mr. Ray Bronson, that Clause 11 of the proposed contract with Council and Dr. McBride be amended, to the intent that the Council shall not give the Doctor notice without consent of the majority of the ratepayers of the Silver Lane School District. Carried unanimously.

It was proposed by Mr. C. Riley that we form a committee of three to present our requests to the Council, and that power be given them to delete from the proposed contract such clauses as are not applicable, and to insert in our best interest. The following were named as committee: Mr. Berreth, Mr. Ray Bronson, and Mr. T. P. Richmond.

This arrangement was satisfactory to the meeting.

This concluded the business and Mr.

Avondale District

C. H. Allen and family are visiting with Mrs. Chase and Lloyd Allen at Strawberry Plains.

Cynthia Nottingham, Annie Ford and Florence Allen returned from the Junior Conference at the University, Edmonton, on Thursday.

Ben Maguire came out to Allen's on Monday to take a Sheelard Pony in for Robert Kasten.

Eileen and Marie Myers twins, celebrated their fifth birthday on Sunday.

Avondale Junior meeting was called off owing to the Secretary attending the Junior conference.

Avondale Juniors will meet again on the first Saturday in July which falls on the second. We expect to hear the delegate's reports at that time.

Will all members of Avondale Junior Local try to finish the embroidery work as soon as possible and bring it to the meeting.

JARROW CHURCH NEWS

On Sunday evening, June 19th it is expected that the Kinsella Choir will visit Jarro and give a musical service. Those attending are assured of a real treat. Do not miss it. Service at 8 o'clock in the United Church.

The members of the Jarro Ladies Aid wish to thank all those who helped in any way to make their booth at the recent Sports the success it was.

ALMA MATER NEWS

The Alma Mater Merry-makers are holding a picnic on the S. E. Quarter of 5-46-8 with Saturday, June 25th, to start at 2 P. M. promptly.

A big programme of sports is arranged. Races for everybody. Basketball, Softball, Football and several baseball teams will be on hand.

Supper will be served, also there will be a booth on the grounds.

In the evening there will be a dance.

Admission to dance, Gents 25c. Everybody welcome. Ladies kindly bring lunch.

MINUTES OF SCHOOL MEETING

JUNE 8th, 1932

The Board of Trustees of the Irma Public School, No. 2435 met in the Village Office on June 7th, 1932, with a full Board present.

Mrs. Schonert in the Chair. Minutes of May 2nd and 16th read and were adopted as read on motion of Mr. Johnson.

Deputy Fire Chief's report on the Public School building was discussed and it was decided to let this matter stand over until the summer holidays as there is very little if any fire kept on during the remainder of this month.

Moved by Mr. Peterson that the following bills be passed and paid:

W. N. Pricketton—Supplies \$8.50
Frank Maguire — Labor 50

Carried.

Moved by Mr. Johnson that the salaries for the teachers of the Senior and Junior rooms of the Irma Public School be \$840.00 each for the School terms of 1932 and 1933. Cd.

No more business on hand Mr. Johnson moved we adjourn. Cd.

E. W. Carter, Sec.-Treas.

Women's Institute Column

The Women's Institute will meet on Thursday, July 7th at 2.30 p.m. at the home of Mrs. Howard Peterson. This being Grandmothers day we cordially invite all grandmothers in the district to come to this meeting when we hope to give them a real good time. Please don't wait for special invitations but come.

A Garden Party has been planned for July 20th at the home of Mrs. Albert Knudson's so watch for further announcements.

The members of the W. I. wish to thank all those that turned out to help clean up the cemetery.

J. Bell moved that we adjourn, seconded by Mr. C. Reid. Carried.

T. P. Richmond, Secretary

The above report is witnessed as being correct:

Roy J. Bronson, T. H. Berreth.

Boxing June 18th

A high class boxing program has been arranged to be held in Kiefer's Hall, Irma, on Saturday evening, June 18th, commencing at 8.30 o'clock.

For the headline bout Chas. Clark, promoter, has secured the services of the well known Kid Holland, of Drumheller, weight 160 lbs., and a newcomer to the Irma district, Carl Herzog, who has had several professional bouts, 9 of which he has won over the knockout route, 6 decision fights and one draw. That he will be a good match for Holland is a foregone conclusion.

As a semi-fine event Young Nash of Irma, and Art Baker, of Beaver Crossing will step off five rounds, and Jimmie Carter and Young Renwick are matched for four rounds. Other preliminaries are being arranged.

The main bout is scheduled for ten three minutes rounds.

The price of admission is \$1.25 and \$1.00, tax included.

Large posters will be out in a day or two. In the meantime, tell your friends about this big event, and plan to be there.

IRMA LODGE No. 56 L.O.O.F.

ANNUAL PICNIC, JULY 6th

Irma Lodge No. 56 L. O. O. F. are holding their annual picnic at Steferson's Lake on Wednesday, July 6th. Full particulars will appear in next week's Times.

WHEAT TO FRANCE

Dreyfus, famous French grain firm, is reported to have purchased a quarter of a million bushels of wheat in western Canada; that will be shipped this season over the Hudson Bay route to France. Through a New purchase of the grain and gave the first sign of completion over the use of the new Bay route in shipping grain to European ports. Already nearly two million bushels, handled by the Canadian National Railways, are in the new Dominion Government elevator at Churchill for the Continental Grain company. This group will export at least one million bushels this summer.

REGINA OIL REFINERY

Preliminary construction work has commenced on the building of a small oil refinery, immediately outside the city limits of Regina, Saskatchewan, adjacent to the lines of the Canadian National Railways. The new plant is being erected by H. C. Karels and R. E. Karels, of the Regina Auto Body shop, and will cost approximately \$25,000 to complete. Gasoline, kerosene, and fuel oil will be produced at the new plant, which will include a cracking unit and also be equipped to eliminate sulphur from its products. The refinery is expected to be in production by Fall, and will be the second small plant to be erected in Regina this year.

FARMER RUSH CAUSED BREAK IN GRAIN PRICE

Ottawa, June 6th.—The Canadian government will extend the date at which the five-cent-bushel bonus of wheat expires from June 15th to June 30th. This was intimated in official circles and the order in council making the extension will probably be signed today.

One of the reasons given for the break of over four cents a bushel in the price of wheat in Winnipeg on Saturday was the rush of farmers to get the balance of their wheat to the elevators in time to obtain the benefit of the bonus.

As the wheat was delivered at the country elevators much of it was hedged in Winnipeg. With very light export demand this selling of futures against the grain received, forced the market down.

STRAVED—To my place, May 31, White Pig, owner can have same by paying for this advertisement and damages. — E. Huffman, Irma, 20p.

FOR SALE — Model T Ford Coupe, new tires all round, for sale cheap. — Dave Credille, Wainwright or Irma. 20-2-P.

TENDERS

Tenders wanted for repairing fence and cleaning stable. For particulars see J. C. McLean, Sec.-Treas. Education Point School, Irma, Alberta. 19-20c

Wainwright

Mr. W. O'Callaghan is the new secretary of the Curling Club, since Mr. Cuthbertson resigned. This was decided at the meeting on Saturday.

Mr. and Mrs. Dave Davison drove to the city last week to be present at the funeral of a relative there in the person of Mrs. McClymont.

A new barn is being built for the Dick Mackay school, for which Mr. Dick Mackay has the contract.

Caused by settlement of the trenching, one of the water mains was discovered to be broken last week on Main street. This is now undergoing repair at the hands of town employees.

It has been reported to us that the severe rain storm on Saturday night last gave over half-inch of rain in about forty minutes. It sure was wet!

The local members of the R. C. M. P. now have their new clothing issue, and although of a somewhat different hue the uniforms look real smart.

Mr. D. L. Plumton motored up from Belmont, Man., last week with Mrs. Plumton and their little son, and he is now ensconced in his manship of the local branch of the Bank of Montreal. A welcome to Wainwright is extended the newcomers.

A number of golf devotees were attending the tournament on Friday last at Hughenden, while others took in different sports at other centres for the holiday.

Donald Smith, a 23-year-old farmer of the Dewberry district, was drowned Wednesday evening last in an improvised swimming pool along the railway track. Smith had been discing all the afternoon and before going home went in for a swim. People passing by saw clothes on the bank and on making further search saw the body of young Smith in the water.

It is thought he must have been seized by cramps shortly after going into the water. He was unmarried.

Stampede

A Stampede that promises to be outstanding in every way is advertised to be held at Buckskin Flats, on the S. E. Quarter of Sec. 11-47-9, with, 23 miles south of Mannville, and 9 miles north of Irma on Wednesday, June 22nd. A great variety of stampede events will take place, including bucking horses, wild cow milking, wild steer races, calf roping and hog tying, and other pastimes that cowboys delight in. There will also be foot races for children, pillow fights, tug-of-war, clown and trick roper. Four good ball teams will be on hand, and an open air pavilion has been erected for a big dance. See posters for further particulars.

CUTWORM AND GRASS-HOPPER SITUATION

Cold and damp weather has overcome the situation with regard to cutworms and grasshoppers to some extent but authorities are still concerned over a possible outbreak of these pests. Much of the main wheat belt of the west has been chartered by the Entomological Branch of the Dominion Department of Agriculture as subject to damage by cutworms this year. The danger will not be past until the end of the feeding period in mid June.

FREIGHT REBATE ON EXPORT CATTLE

The 50 per cent. reduction in the freight rate on western cattle shipped from Ontario and Quebec feeding points to Montreal for export, a concession granted by the Canadian National Railways last autumn, has been extended to August 31st. The reduction applies only on western cattle re-shipped from Ontario and Quebec points to Montreal on through bills of lading. The shipments are forwarded at the regular export rate and the 50 per cent. reduction is by way of rebate on application of the owner, who must be a bona fide farmer. The extension is an effort by the railways to co-operate with the livestock industry to stimulate finishing of western cattle in eastern feed lots.

Inward paid expense bills covering shipments from West Canada to eastern feed lots must in all cases be attached to claims for rebate.

IRMA BRANCH CANADIAN LEGION B.E.S.L.

An executive meeting of the above branch is called for June 6th at 8 p.m. at Com. Coles office.

DR. MURRY DENTIST

In IRMA, FRIDAY, JUNE 17

Dr. Murray, Dentist, will be in Irma on Friday, June 17th for professional services. 2t

MUNICIPAL HAIL INSURANCE

Application forms for Municipal Hail Insurance are now available and can be had from the Secretaries Office any purchaser of land can insure against hail and the premiums collected entered as taxes.

Chas. Wilbraham, Sec.-Treas. M. D. Battle River, Irma, Alta.

NOTICE TO CREDITORS

In the Estate of GROVER FRANKLIN ARNOLD late of the Post Office of Irma in the Province of Alberta, Farmer, Deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Grover Franklin Arnold who died on the 15th day of January A.D. 1932, are required to file with Mrs. Margery Arnold, Irma, Alberta, by the 2nd day of July, A.D. 1932, a full statement duly verified of their claims and of any securities held by them, and that after that date the executrix will distribute the assets of the deceased among the parties, entitled thereto having regard only to the claims of which notice has been so filed or which have been brought to her knowledge.

Dated this 16th day of May A.D. 1932.

CLIFTON G. PURVIS, Solicitor for Mrs. Margery Arnold, Executrix, Irma, Alta. 3tc

A Message From The Prince

In January of this year, the Prince of Wales addressed a message to the youth of Great Britain at a large meeting held in the Royal Albert Hall, London, England. That message is just as applicable to the youth of Canada as it is to the youth of the Old Land, and we, therefore, reproduce the speech, in part, as follows:

Youth cannot long remain a spectator of life, it will only be a short time before the work of the world will be placed on your shoulders to carry. Many tasks wait for your help; knowledge to be discovered, open spaces to be peopled, natural resources to be developed, sickness to be conquered, and wrongs to be righted. With these high quests before you, you will realize that the mere acquisition of material things is not in itself the fulfilment of an individual or a national purpose, and as is little, compared with the satisfaction derived from your own effort, especially when that effort advances human welfare and happiness.

I want you to understand that we are not just facing a few months of "grim and bear it," but that we must get into training for a long period of work—hard work and effort, sustained despite possible discouragements. You must be prepared, as others have been before, to enlist "for the duration," without asking how much may in the long run be required of you.

You cannot hope to influence directly the trend of international affairs, but close at hand is a domestic problem, vast and baffling if looked at in the mass, though easier to help when broken up into individual pieces. It is made up of men and women, boys and girls. I am, as you will have guessed, thinking of unemployment. I am thinking now neither in terms of economics nor of politics but of each member of the unemployed population as a single, separate personality, beset by depression, labouring under a sense of frustration and futility—a blank wall in front of him which he can neither climb over nor scramble round. My appeal here is not to statesmen, nor even to philanthropists, but to all those who are in work to play the part of neighbour and friend to the man out of work. That is the open road of duty and a short cut to happiness all round. There is no central machinery here in London that can provide a substitute for the good neighbour.

The enemy today is depression and apathy. Let us attack them with two of our old-fashioned characteristics—good sense and good humour. I believe there are groups of the unemployed here and there, dead sick of prolonged idleness, who are themselves feeling out toward ways of giving their untried labour in co-operative effort for the help of others in need. It is up to us to back such attempts with every possible support. Get together wherever this burden lies heaviest, face up to the most urgent local need, and see if the community on the spot cannot make its own self-directed contribution toward this vast problem. So far as is humanly possible let us break it up into little pieces and refuse to be browbeaten into paralysis by its size. I am talking, I repeat, neither on the economic nor on the political plane, but on the humane plane of simple friendship in those places where the clouds are darkest, where the pits are closed or the furnaces damped down. What matter if some trifling blunder is committed here or some project falls there. The very attempt of the community to achieve some social betterment for the sake of the workless in their midst will lift the general level of hope and make easier every national solution by statesmen and economists.

The world passed into a new age with the end of the Great War. Never was a new age born in greater agony, nor in a more difficult environment, for health and normal growth. What we make of it as a democracy is of vital concern not only to ourselves but to the whole world.

The message that I have tried to give you is a twofold one—first, for a fresh response to national service, for a greater spirit of unselfish and adventurous helpfulness in the midst of problems which our ablest men find difficult to unravel.

The second point is that the opportunity for service is at our door—in our own village, in our own town.

Italian Air Fleet Coming

Twenty Sea Planes Plan Trip To Chicago Next Year.

A second Italian air fleet will fly the Atlantic next year, with the double purpose of celebrating the tenth year of Fascism and also the World's Fair in Chicago.

A fleet of 20 twin-motored seaplanes, under command of General Italo Balbo, the Air Minister, the same man who commanded the first armada to South America a year ago, will undertake the flight. The ultimate objective will be Chicago.

The route probably will be via Ireland, Iceland, Greenland, Labrador and Canadian points.

A Great Dairy Country

Denmark has per 100 inhabitants about 86 head of cattle, of which 45 are dairy cows. Since the beginning of the century the average yearly yield of milk in that country has increased from 6,493 to 8,217 pounds, the percentage of fat from 3.49 to 3.86, and the pounds of butter fat from 220 to 317.2.

Britain proposes to print its postage stamps in a government plant, the work now being done by private firms under contract.

A form of gas mask has been invented to protect firemen in dense smoke or under 16 feet of water.

Nerves A Complete Wreck

Sat Up Half The Night

Mrs. John Rose, Bark Lake, Ont., writes:—"I was troubled so much with my nerves I was a complete wreck. I could not do my work, and would have to sit up half the night on account of not being able to sleep."

One day a friend recommended Milburn's Heart and Nerve Pills. I used one box and got relief, and by the time I had taken six boxes I was as well as ever."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Trains On Rubber Tires

Forerunner Of A New Era In Rail

Comfort

The pneumatic-tired railroad coach which made a trial trip from Cleveland to Akron and return this week may easily prove a forerunner of a new era in rail comfort. Trunk lines are speeding up their schedules. Palace car builders are getting away from the type of interior. The pounding of steel wheels on steel rails may ultimately be outlawed as needless.

Railroads in general have been slow to copy devices which give their competitors advantages in the race for business. Be the reasons what they may—and some of them, are obvious enough—rail lines have suffered by the motor industry's avid adoption and improvement of such things as rubber tires, lighter engines, less rigid schedules, better coach construction and other factors. A liberal public attitude toward the use of highways is part of the story.

Tires of rubber, and particularly air-inflated tires, have played a large part in a transportation evolution. If railroads can make use of them, as recent experimentation indicates they hope to, some check may be put on the trek of passengers from rail to highways.—Cleveland Plain Dealer.

On Training The Child

Parents Inclined To Pass The Responsibility To Other Shoulders

The bad and blundering side of State benevolence is nowhere plainer than in the relations between parent and child. On the whole, as the State takes more responsibility for the child, the parent takes less. Parents are encouraged to abdicate in favour of the doctor, the teacher, the policeman—all the agencies which the State offers or forces upon them without apparent cost. Children tend to get less from their parents in the way of example, attention and steady influence. In these things, when the parent fails, there is no real substitute. The "old-fashioned" parent made it his and her first business to bring up the children—and found time for the business, though families were large and methods summary. The new-style parent has been induced to profess as a general creed that "the State will provide." It is the children who suffer.—London Times.

Perfect Production Of

"Tone Values" Sought

British Firms Spending Huge-Sum On Sound Test

The "big three" of Britain's radio-gramophone firms have decided to spend \$100,000—just to satisfy the critical ear of a musician.

The money is to be devoted to research for achieving perfect reproduction of all "tone values." The average listener cannot even detect that these are lacking, but the highly trained musician can.

Acoustic experts are now engaged in solving this problem. When they have done so Great Britain will be able to claim that it produces the most perfect sound reproducers in the world.

Flies Across Australia

Young Girl Makes Hazardous Journey Through Desert

Irene Dean-Williams, "Fapper flyer," arrived at Melbourne from Perth, western Australia, thus becoming the first woman to pilot an aeroplane across the Australian continent.

Part of the flight was across the central Australian desert, the "graveyard" of many flyers, where the air often is so hot and devoid of moisture, that it blisters the mouth and nostrils.

Good-bye Asthma. Persons suffering from that extremely trying trouble known as asthma know what it is to long with all their hearts for escape as from a tyrant. Never do they know when an attack may come and they know that the struggle is a losing one. With Dr. J. D. Kellogg's Asthma Remedy at hand, however, they can say good-bye to their enemy and enjoy life again. It helps at once.

Maybe Keys Were Needed

A tourist party of ladies were obliged to seek quarters in a farm house, where everything was so simply itself, and also so scrupulously clean and homelike. When bedtime came some of the party, finding there were no keys in the locks of the rooms, consulted the farmer's wife, who was undisguisedly surprised.

"Why," she said, "we don't usually lock our doors here, and there's no one here but you! But then," she added, scrutinizing the ladies carefully, "I suppose you know your own party best!"

Both ends of a telephone conversation can be recorded with a new machine for future reference.

"I Was Terribly Run Down"

Says Mrs. Doughty: "Dr. Williams' Pink Pills Built Me Up"

"I believe it my duty to tell others what wonderful results I obtained from Dr. Williams' Pink Pills," writes Mrs. James E. Doughty.

Bradford, Ont. "I suffered from a terribly nervous and run-down condition; very pale and with no ambition. I took three boxes of the Pills, and I soon began to feel like a new woman. No trouble to do my housework. The Pills built me up and put me in first-class condition."

Mrs. Richard Runk, Robin, Man. writes: "Diphtheria left our daughter, Beth, a nervous wreck. She was unable to continue at school. I gave her Dr. Williams' Pink Pills, and the change in her was marvellous. She is enjoying splendid health—and we do feel that Dr. Williams' Pink Pills saved her life."

Don't allow yourself or your daughter to continue at school. Take Dr. Williams' Pink Pills. They are no temporary relief. They banish run-down or nervous conditions by creating new blood, which imparts health, vigour and vitality. 50c—at your druggist's.

Will Use Bay Route

Famous French Grain Firm Will Make Big Shipment Of Wheat

Dreyfus, famous French grain firm, has purchased a quarter of a million bushels of wheat in western Canada, that will be shipped this season over the Hudson Bay route to France. It was definitely learned from official sources. Through a New York agency the French firm has completed the purchase of the grain and gave the first sign of completion between important grain firms over the use of the new Bay route in shipping grain to European ports. Already nearly two million bushels have been shipped to Churchill for the Continental Grain Company. This group will export at least one million bushels this summer.

B. C. Cuyck, Canadian president of the Continental Grain Company, is making a strong effort to obtain cargoes for the four or five boats which his company will bring into Churchill this summer for the shipment of their grain.

If a reasonable amount of incoming cargo can be obtained and the insurance rates lowered slightly, the Hudson Bay route is a cinch," he declared in an interview.

"We firmly believe the insurance rates will be cut this summer, and we expect the people of western Canada to support their new seaport to the extent of obtaining incoming cargoes," he said.

Possibility Of Oil In Northern Alberta

Geologists Believe Ancient Rock Formations Are An Indication

Rock formations in the northern section of Alberta indicate possibilities of oil in commercial quantities. This opinion was expressed at Ottawa before the Royal Society of Canada when a number of geologists described the districts of Mountain Park, Peace River, Wainwright and Viking as containing marine sediments. This would indicate, they said, the district once formed a part of the vast ocean that covered what now forms the three prairie provinces. The rocky formations are about 150,000,000 years old.

Miller's Worm Powders are complete in themselves. They not only drive worms from the system, but repair the damage that worms cause and so invigorate the constitution that it speedily recovers from the disorders of the digestion that are the result of the action of these parasitic intruders. They do their work thoroughly and strength and soundness follow their use.

Britain's Concrete Highways

During 1931 there were 440 miles of all-concrete roadway laid in the British Isles—140 miles more than in any previous year. Roads are now constructed in buff, red and green concrete as being more sighted, and offering a striking contrast to kerbs and direction signals.

World consumption of hides last year is estimated to have been the smallest for six years, having approximated 65,120,000.

Contract Bridge

By Hamlin B. Hatch, Cavendish Club, Toronto

Systems In Contract

The average contract bridge player, at the present time is agog over the controversy raging around the different systems of playing. There are four principal systems now being exploited by their different sponsors. In order of importance they rank as follows:

1st. The Approach-Forcing System (Sponsored by Culbertson).
2nd. The Official System (Sponsored by Lenz et al.).
3rd. The One Over One (Sponsored by Geo. Reith and The Knickerbocker Whist Club).
4th. The Vanderbilt Club (Sponsored by Harold Vanderbilt).

The system in Contract may be defined as an attempt to put into a form easy to learn, the methods the good card player have always used. This being so, it is certain that, as most card players use the same methods with slight variations, any system can differ but slightly from any system only slightly, and this is so. The variations in all four systems are slight and the good contract player is, as a rule, familiar with all the systems, and can, if asked to do so, play any system his partner desires to play.

The Approach-Forcing System. The main approach to the Approach-Forcing System are as follows:—1st. The opening bid of one which must have a minimum of 2½ honor tricks and one playing trick, and may have a maximum of six honor tricks and seven or eight playing tricks.

2nd. The weak no trump takeout by the partner of the original bidder. This is made on a maximum of one and one-half honor tricks and a minimum of one honor trick, or in exceptional cases of less than one honor trick. The takeout denies normal support, suit originally bid and practically warns partner that for that particular deal, the partnership is not a partnership.

Further it discloses the fact that, as a rule, the responding hand is balanced, i.e., contains no void suit or singletons.

3rd. The Jump-Shift Response. This is a jump bid in a suit other than the suit originally bid and is a demand bid requiring the partnership to keep the bidding open until a game contract is arrived at. It is made by the responding hand usually on a minimum of two and one-half honor tricks, or sometimes less when the hand distribution is favorable.

4th. The Original Two Bid. Based on five and one-half honor tricks as a minimum and demands that bidding be kept open by partnership until cards can be arrived at. The tendency lately, by users of this system is to limit the two bid to hands which will make game with even less than one honor trick in partner's hand.

5th. The Jump Overall. A jump bid made by opponents of original bidder and is a strong invitation to partner of the overcaller to keep the bidding open provided partner has the equivalent of one honor trick. If however the overcaller's partner has less than one honor trick he may pass.

6th. The Informative Double. A bid made as an overall and demands a response. If the responder has no response there is no intervening bid. It is usually made with strength in the major suits and is a fighting not a defensive bid. With the balance of strength in the hand of the doubler's partner, game is likely in the hand.

7th. The Overcall by the opponents of the one bid originally by two of the same suit. If the opening bid is one heart and the opponents overcall with two hearts, this overcall means control of the heart suit, i.e. either a void in hearts, the singleton ace, the ace small, or the ace king or ace queen.

This bid is the most powerful bid in the approach forcing system, is used definitely as a slam signal and practically guarantees game on any four card suit that the partner of the overcaller has.

The synopsis given above contains practically all the salient features of the Approach-Forcing System. Generally it may be said that in this system whenever there is a four card biddable suit in the hand, this suit is bid in preference to no trump. A biddable four card suit may be defined as one which contains two high honors, one of which must be the ace or king, and the other queen or jack. The no trump opening bid is made only when the hand contains two and one-half honor tricks, no four or five card biddable suit, and has a balanced pattern.

In the next article the main features of the other systems will be outlined.

Perfume Balm is a sheer delight to use. Cools and relieves irritations caused by weather conditions. Imparts a rare charm and beauty to the complexion. Fragrant and velvety smooth. Never leaves a vestige of stickiness. Swiftly absorbed by the tissues and stimulates the skin. Perspiration, the peerless toilet requisite. Every woman will appreciate the subtly distinctive charm achieved by the use of this magical lotion.

Skys Cinema Tested

A "Sky Cinema" invented by a German engineer, Dr. Mannheimer, has been successfully tested over Berlin. It projects moving pictures on the clouds.

DEFINITE HELP FOR DWELLERS IN APARTMENTS

Odorless way found to cook fish, cauliflower and cabbage

CANAPAR IS A PRODUCT OF HAMILTON FIRM

Lives there a woman, in apartment, duplex or home, who has not at some time or other reluctantly forgone fish, cabbage, and cauliflower because of the odors they give off when being cooked? Or who has not suffered from other people close by who cooked these foods regardless? Canapar entirely does away with this annoyance. More than that, it actually improves flavor and food value. Cooking in Canapar parallels the famous French method of simmering and confining food and its flavours to the closed casserole. Canapar comes in large sheets, in a handy size package. When boiling vegetables you simply wet the sheet of Canapar and make a bag similar to a pudding bag. If you are steaming, use a particularly good steam with Canapar, arrange food and seasoning, and fold back corners of the Canapar to prevent steam from dripping back.

Boiled or steamed fish is particularly delicious done this way. No fishy odor in the kitchen, no gummy kettle to clean. When roasting meat, line the pan with Canapar. It prevents the fats and juices from burning, and eliminates scoring of the pan after wards. Canapar saves fuel. You can cook three vegetables simultaneously in the same saucepan with it, without intermingling of flavors. And it is very economical. Just rinse the sheet after using it, hang it on a towel rack to dry. Use it over and over again.

Lots of women use Canapar for a dish cloth—it is so silky and satisfactory and does not stain. It is a particularly good use if you happen to receive the sheet of Canapar while testing the food during the cooking of Canapar and your 100 recipes for "Left-overs."

Special Offer
Most grocers, druggists and department stores sell Canapar. If you don't, send the coupon direct and we'll give you a new and unique book entitled "Leftovers" containing one hundred recipes as a bonus for your trouble.

Appleford Paper Products, Ltd., Hamilton, Ontario

Enclosed find 25c for which please send me one full-size package of CANAPAR Cookery Parchment and your 100 recipes for "Left-overs."

Canadian Tobacco Exports

Dominion Largest Exporter In Empire Of Tobacco To Great Britain

Canada in the first four months of 1932 has developed its position here as the largest exporter among countries of the Empire of unmanufactured tobacco to Great Britain.

From January to April, a report of the Dominion Bureau of Statistics shows, Canada exported 6,883,315 pounds of tobacco compared with 2,809,766 pounds for the same period of 1931. The total imports into Great Britain aggregated 48,236,021 pounds for the four months, with British Empire countries supplying 10,075,935 pounds.

Fly Around The World

Aviator Contemplates Globe Circling Tour With His Wife

Lieutenant Frank J. Lynch of Summit, N.J., who describes himself as a former war-time flying instructor at San Diego, and a former movie stunt pilot, has announced details of a 40,000-mile round-the-world flight in a monoplane now nearing completion. Lynch said he will make the tour with his wife, the former Josephine McKee of St. Paul, Minn.

Their plane is a high wing monoplane and will have a cruising speed of 175 miles an hour, and a top of 210.

"Why won't she marry you? Is there another man in the case?"

"I'm afraid so."

"Can you know who he is?"

"Yes, her father."

Sixty tons of flowers are being shipped daily from Spalding, England, and soon 200 tons will be sent each day to all parts of the country.

DR. HAMILTON'S PILLS

STOP HEADACHE INDIGESTION BILIOUSNESS CONSTIPATION

Scientists At Ottawa Suggest That There Be Two Major Divisions Of Geological Time

Standard time consisting of eons, eras, suberas and periods is the aim of the national committee on stratigraphical nomenclature, Dr. F. J. Alcock, of the geological survey of Canada, chairman, told Section 4 of the Royal Society of Canada meeting at Ottawa.

It is the opinion of the committee that geological time previous to the development of abundant life on the earth's surface is at least as great as geological time from that development until the present moment. The suggestion is that, therefore, there should be two major divisions, and that these be known as "eons."

Seven hundred million years was the estimate of some members of the section of the length of the latter eon, and they thought the former to be much longer. Granite rocks in Manitoba, have been stated to have an age of 2,000,000,000 years.

At the same session a paper by Prof. J. S. Delury, of the University of Manitoba, speculated on the earth's development and composition.

The belief expressed was that the centre of the earth consists of heavy, dense metallic substances; that its crust consisted of lighter rocks and that in between lies the great zone of flowage and adjustments.

The earth, Prof. Delury stated, is losing heat in exceptionally large amounts from certain more or less restricted belts of the earth's surface. Once, millions of years ago, the escape of heat in this way occurred in Canada; now it is chiefly in the vicinity of the Hawaiian Islands in the Pacific Ocean.

Supporting his thesis, Prof. Delury reported that the temperature rises one degree every 400 feet down in the Flood mine of Northern Ontario. In Hawaii the temperature rises one degree in every 50 feet.

How aerial photography has achieved results for geologists which on foot they would have been years in securing was shown by D. A. Nichols of the geological survey, who exhibited an unusual series of photographs taken by the Royal Canadian Air Force.

In these pictures, taken chiefly in the Athabasca, Great Bear and Great Slave Lake and Arctic areas of Canada, land forms such as faults, dykes, folds, fjords, eskers and beaches (formed years ago) were clearly defined and some were shown to extend for many miles. Some of these were recognized from descriptions given by members of the geological survey as many as 40 years ago.

Further light, of value to miners and prospectors, of British Columbia, was thrown on the body of granite rocks known as the Coast Batholith, which extends 1,200 miles from a point near the international boundary northward and westward into Alaska. The survey work of the geological survey, which began in this area as far back as 1851, has provided additional information year by year. Once it was thought the possibilities of finding valuable deposits were as good in one part of the area as another. The geological survey is indicating where the prospects are good and where they are not. Detailed studies, for instance, have shown that mineral deposits occur associated with certain types of rock and the mapping of these areas provides valuable guides.

Authors of papers given were Dr. Forrest Kerr, of the geological survey; Dr. S. J. Schofield, of the University of British Columbia, and Dr. H. C. Gunning, also of the geological survey.

Customer: "I want to look at a few swords."

Military Outfitter: "Yes, sir. Cavalry or Infantry?"

"Oh, I don't suppose it really matters. It's for wedding cake."

Quebec's maple sugar crop for 1932, which is roughly estimated at 24,000,000 pounds, is double that of last year, though 6,000,000 pounds under average.

"Did that suit really cost \$6?"

"Yes, I can show you 15 demands for payment."—Kasper, Stockholm.

Lessons By Radio

Use Of Broadcasting To Further Education In The West

The use of radio broadcasting to extend the benefits of university training was urged upon the 15th national conference of Canadian universities at Ottawa by Professor E. A. Corbett, director of extra-mural relations at the University of Alberta, and conductor of the university's radio station, CKUA. This university has been a pioneer in the use of the radio for educational purposes in Canada and has developed a considerable volume of educational broadcasting which covers practically the whole province.

Professor Corbett recently appeared before the parliamentary committee on radio broadcasting with a brief prepared in the interest of educational broadcasting and had made a study of this work in those sections of the United States in which this work has been carried on to a considerable extent.

Some of the work of Canadian universities, aimed at making Canada a truly bilingual country, was described.

The subject of the first session was "Modern Language Teaching," and dealt almost entirely with the teaching of French in English universities, and the teaching of English in French speaking universities.

Abbe Alexander Vachon, Laval University, observed that practically every Quebec member of the House of Commons could express himself adequately in the English language, and that many could speak with equal facility in either language. At Laval an attempt was made to give every graduate a complete mastery of the English language, even though he might enter the college with no English.

The British Way

Right Of Free Speech Not Curtailed In Hyde Park

While the great American people, followed by the great Canadian people, in their turn—are falling over themselves to put down the right of free speech when it is even faintly suspected that there may be a tinge of red in it, it is refreshing to read that in the land of true liberty they do things differently.

Word came in the English press of the Communist celebrations in London on May Day. Hyde Park was filled with Communists, 30 speeches were made simultaneously, and great resolutions passed. Then they went home. No one was injured and the police merely looked on.—Vancouver Province.

Figured He Was Wrestler

Paderewski's Name Meant Nothing To Spokane Express Agent

From the far other shore of this broad land, from Spokane, Washington, to be specific, is relayed one end of a telephone conversation overheard by a traveller. It was the express agent at the railroad station there calling the Auditorium Theatre. He got his connection and asked for the man who handled the wrestling matches.

"Hello," he said, "is this the man that handles the wrestling?"

Well, we got a big crate here and we didn't know what theatre to send it to. We figure it's yours. You got a wrestler coming by the name of Paderewski?"

Society Learns How

Insulin Is Produced

Paper Read At Ottawa Meeting By Dr. Banting's Associate

Present methods of producing insulin, Canadian discovered diabetes remedy, in large quantities were described to the Royal Society of Canada in a paper by Dr. A. Scott and H. Parker, read by Dr. C. H. Best, Toronto associate of Dr. F. G. Banting.

Newest laboratory practice resulting from long research enables production of 2,000 units of insulin from one filogram of pancreas, a gland-secreting digestive fluid, the paper said.

The custom of naming craters and other objects on the moon after famous astronomers was begun by the seventeenth century astronomer, Riccioli.

Harry: "Polished woman, Mrs. Simnick, don't you think?"

Beata: "Very. Everything she says casts reflection on someone."

Living Conditions In Ireland Have Improved

Change For Better Since Free State Came Into Being

An article by Charles Petrie, in Nineteenth Century and After, says: the general standard of living is decidedly lower in Ireland than in England, and both wireless sets and gramophones are still regarded in the light of luxuries rather than as necessities. On the other hand, the farmer's wife and daughters are not trying so hard to be ladies that they have no time to take their share in the work of the farm. Moreover, there has been a great change for the better since the Free State came into being, even where the poorest class of the population is concerned.

The crumbling cottages of generations ago have either been repaired or replaced by more modern dwellings, and in their new surroundings the inhabitants have acquired a new self respect. Beggars are as rare in the Free State as in Fascist Italy, and the Londoner who visits Dublin will find it a decided relief not to be pestered for money every few yards along the street. Only in the more remote parts of Galway is the down-at-heel peasant of yore still to be seen, for elsewhere he has been replaced by the type of countrymen of whom any country might well be proud. Inebriety, too, is on the decline, possibly for economic reasons.

Industries In India

Sugar and Cotton Trade Is Showing Big Increase

India continues to prove itself the land of strange contradictions. Despite its own condition, Sir George Schuster, its Finance Member, finds that India's budget, which is balanced over a three-year period will show a surplus. Gold sales at a high price explain the satisfactory situation only in part. The sugar industry, for instance, is expanding, 13 important factories being in construction and seven others planned. The cotton mill trade shows large increase. Postoffice savings deposits are expected to advance one-third this year. A cheerful disclosure is made as to where the ready resources lie—the masses show that they have a considerable amount of money available for investment.

An Ironic Fact

It is a somewhat ironic fact that the little village of Bon Head in Eastern Ontario, should be the birthplace of two of the most distinguished Canadians of the generation following the pioneer days, one of whom Sir William Osler, was famous for the contention that men were useless above 60 years of age, while the other Sir William Muleck, has had nearly 30 years of the highest form of usefulness after passing that age and at nearly 90 is still going strong.

Will Be Great Help

Another helpful little item is reported from England where a scientist has succeeded in splitting the atom. Folks who heretofore have been compelled to use a whole atom at one time and waste part of it can now use half an atom, and be mighty glad of it.

A freshman at Indiana University, taking out a permit to use his car while in residence, found himself confronted with the following question: "Purpose for which car is to be used?" To ride in.

"My husband is a real prize to the bank," said the boastful wife of a bank clerk. "The way in which he handles notes is truly wonderful—counts them like lightning, without ever making a mistake." "Really," said the friend to whom the statement was made. "Never a mistake at all?" "No—well, at least he is never out more than a few coppers!"

More than \$5,135,000 has been awarded since the inauguration of the Nobel Prizes, which are given to leading men and women for services to literature, science, and international peace.

Canadian Radio League Officials Regret That Salaried Commission Will Conduct Broadcast System

Noise May Accompany Auroral Display

Possibility Being Studied By Royal Society Of Canada

The question of whether sounds sometimes accompany auroral displays in the sky came in for discussion before section three of the Royal Society of Canada at Ottawa.

Just because the currently held belief as to the cause and nature of aurora does not provide for any sound to be heard, Dr. J. S. Plaskett, director of the astrophysical observatory on Vancouver Island and the holder of the Flavelle medal of the Royal Society of Canada for 1932, thinks that the great body of evidence that sounds have been heard should not be discarded.

He read a paper before the section, prepared by Dr. C. S. Beals, of the observatory staff, in which it was stated that the only interpretation of the observations which seems to fit all the facts is that both the sounds and low level apparitions sometimes reported are real, and that they constitute normal though perhaps unusual accompaniments of other auroral phenomena.

"If this is so," it is stated further, "there must be some definite physical process taking place close to the earth's surface which is able to produce the effects that have been observed. The aurora has long been considered to be electrical in origin and the hypothesis that the auroral sounds and low level displays are due to some sort of electrical discharge near the surface of the earth seems a very reasonable one."

Assist Poultrymen

Hon. Robert Weir, Minister Of Agriculture, Promises Continuation Of Government Aid

Continuation of the assistance given by the government to poultry breeders desirous of securing registered cockerels for their flocks, was announced by Hon. Robert Weir, Minister of Agriculture. The assistance amounts to transportation charges and a sum of \$1.25 per bird toward the purchase price providing the cockerels pass the inspection tests and are shipped in lots of ten or more.

The purchases must be made from bona fide breeders entered under the federal policies of registration or record of performance. There is no restriction to the sale price.

Plenty To Learn

And while on the subject of the excessive expense accounts of our legislators and government officials, let it be observed that members of the British parliament are now allowed only third-class fares when they travel, and even at that the tickets are issued only between London and their constituencies. We've a lot to learn from the old land—Farmers' Sun.

Wealth Hoarded In States

Money estimated to amount to \$1,300,000,000 is being hoarded by Americans in the United States, President Hoover, in a recent appeal for the release of this money, stated that every dollar thus hoarded was equal to "the destruction of from five to ten dollars in credit."

Regret that a salaried commission was to be appointed to conduct Canada's proposed new radio broadcasting system was expressed by officials of the Canadian Radio League, which organization was largely instrumental in the presentation to the parliamentary committee of the basis for the radio policy adopted at the session just concluded. It had been felt by the league that the commission should be composed of voluntary workers,

"thus ensuring greater freedom from political interference, and constituting a buffer between the government and the operating organization."

A statement was issued by Allan Plamant, honorary secretary, following a meeting at Ottawa at which it was shown that the organization had been financed, since its inception 18 months ago, at a total cost of \$5,000, more than half of which, Mr. Plamant said, was contributed by members of the executive.

The league will remain in existence as a "watchdog and friendly critic" of the proposed "Canadian Radio Broadcasting Commission," it was stated, and will branch out with a view to securing more members and a wider organization.

Satisfaction was expressed at the successful conclusion of the campaign directed by the league and at the terms of the Radio bill adopted by parliament, except that it was felt, if salaries were to be paid the commissioners, they should be larger than those provided. The legislation authorized a salary of \$10,000 for the chairman and \$8,000 for the two commissioners.

Graham Spry, chairman of the league, said that the salary of the chairman did not equal that paid either responsible business positions or leading university presidents.

The handle as much as \$4,000,000 a year, he said and would be controlling programmes that would be listened to by the whole of Canada for a number of hours a day. Such responsibility should be vested only in the most intelligent and competent hands, "but the commission, as proposed, cut off the possibility of voluntary services and does not pay enough to ensure that at least the chairman will be an experienced and responsible man," he said.

Indian Athlete

Native At Fort Chipewyan Makes High Jump Record

Canadian Olympic committee officials seeking point winners for the Los Angeles games might well turn to latent material among Indian tribes in the Northwest Territories if an athlete record in the Royal Canadian Mounted Police annual report is accurate.

According to Inspector H. Royal-Gagnon, a young Indian whom he does not name jumped six feet one inch at a field meet held at Fort Chipewyan. Knowing nothing of the high jumping art, the Indian, the inspector relates, "just jumps over."

To Ameliorate Conditions

World Conference To Consider Price Slump Is Considered

Ambassador Andrew W. Mellon has asked the foreign office whether Britain believes a world conference to consider the universal slump in commodity prices would ameliorate the general economic crisis. The ambassador discussed the question with Sir John Simon, the British secretary of foreign affairs, but thus far nothing definite has developed. The ambassador's query remains under consideration by the British government.

There are about 15 distinct varieties of cheese; the 400 or more names given to cheeses are of local origin.

Damascus, Syria, is said to be the oldest city in the world.

"I can't understand medicine. The doctor has ordered my wife to take a bath every day, and it is not because she is dirty."—Pages Gales, Yverdon.

HISTORICAL GROUP OF OFFICERS REHEARSE FOR ALDERSHOT TATTOO

The brilliant display which will be witnessed this month, when the Aldershot Tattoo-takes place in England, can be judged from the frequent photographs of the elaborate preparations which are reaching Canada. Above is an historical group of officers: Left to right: Zouave officer; Lord Nelson; Sir Francis Drake, and the Duke of Marlborough.

WANT ADS

FOR SALE—One Berkshire Boar, one year old or will trade for good calf or colt. — N. L. Fuder, Phone No. 408, Irma. 18-20P.

STRAYED—From Section 33-47-8, with One Clyde Golding, weight 1600 lbs., white face, branded C6 on right flank.—\$500 reward. F. C. Lukens, Irma, Alta. 14-17P.

FOR SALE OR TRADE—for cattle, good Ford Car with truck box. — H. W. Love, Irma, Alta. 4t.

WILL TRADE Bees for a Good Fresh Milk Cow.—H. W. Love, Irma, Alta. 4t.

FOR SALE—White Blossom Sweet Clover Seed; 4 cents per lb. or \$4.00 per cwt.—J. H. Armitage. 4t.

"Not how much land settlement work, but how good," was enunciated as the policy of the Canada Colonization Association by W. M. Neal, general manager of western lines, Canadian Pacific Railway, at the annual dinner of officials of the organization held at Calgary recently. Mr. Neal said that during the past five years the association had settled 470 families on 84,263 acres at a purchase price in excess of \$88,000,000.

The largest terminal grain elevator at any port on the seven seas has recently been put into operation at Vancouver by the Alberta Colonization Association. It has a capacity of 5,150,000 bushels and is known as Vancouver Pool Terminal No. 1. During the crop year ended July 31, 1929, Vancouver shipped 96,138, 218 bushels of grain as compared with 79,714,512 and 34,415,653 in the two previous years.

More than \$50,000,000 will be expended on new equipment, new branch line construction and improvement to existing equipment and roadbed by the Canadian Pacific Railway during 1930, according to an announcement made recently by E. W. Beatty, chairman and president of the company. Of this huge sum, \$14,000,000 will be expended in new equipment and conversion and improvement of existing equipment; \$5,000,000 in telegraphs; Canadian Pacific hotels from coast to coast will benefit by \$3,500,000; rail facilities in the west will account for \$10,000,000 and \$7,500,000 will go on expenditures for eastern Canada lines. The five millions will include \$2,500,000 for maintenance during 1930, but does not include large expenditures on ocean steamships, now in hand, and on immigration work.

HOLY FATHER ASKS
8 DAYS SELF DENIAL
Pope Pius XIII Efforts Being Made
to Destroy Beliefs.

Recently the Encyclical "Charitate Christi Compulsi" came from the hand of His Holiness, Pope Pius XI, urging the whole Christian world to devote a week of prayer and reparation to the Sacred Heart of Jesus in order to safeguard itself against the common foes of mankind, namely, Bolshevism and Atheism. He states that the Reds and Atheists are making use of the present world disorders, when men find the greatest difficulty in providing for even the most common necessities, to promulgate their doctrines which have proven so subversive to the highest ideals of humanity.

Pope Pius sets forth these points, among others, in the Encyclical:

1. Greed is the monster which lies at the bottom of world unrest and depression. The mad desire for money has blighted humanity.

2. Communists and speculators, and their manipulations, have worked untold harm. The concentration of wealth in a few hands has brought poverty to the masses.

3. Nationalism that sets people against people has destroyed brotherhood and enthroned hatred, jeopardizing world-wide peace.

4. Communists and atheists, profiting by international economic difficulties, have, in an organized way, sought to blot out all belief in God, to destroy restraint, to obliterate all morality. Unless Christians of all churches arouse themselves chaos may result. There must be union against the common foe to save mankind.

5. Prayer and fasting are two means all must use to route the common foe. Prayer makes not only for recognition of Almighty God, but for interior peace, spiritual progress and civic harmony. Fasting will chasten the spirit and appease God.

6. Mortification is most helpful in these days. The living of simple lives, practicing self-sacrifice and turning what might otherwise be needless spent to the poor will help the giver as well as the recipient.

The Feast of the Sacred Heart seems most opportune for such as desire the helping graces which came so lavishly from the Heart of Christ. Did not our Savior love us with a love unutterable? Did he not suffer in agony and agony on the Cross? Did he not pour forth the last drop of His Blood for us? Are we not therefore foolish and weak, to cry out against conditions, and never once ask His help and grace? Christ Himself has said: "Amen, Amen, I say unto you, if you ask the Father anything in My Name, He will give it to you." How can we be so blind and faithless, when world conditions seem so strongly arrayed against us, as to forget the admonitions of Our Lord, and thus lose so much of the spiritual help which wells up from His Sacred Heart? Peace and tranquillity of soul and heart shall not be ours, the charity of man for his brother man shall not sit enthroned among the nations, until men forego the presumption that they can find true concord without the help of God. No lasting peace shall reign until man returns to the practice of religion and hold faith in God; that faith which makes us akin to the angels and is devoid of greed, of egotism, and depraved ideals.

The Encyclical, which gets its name from the fact that goes the cycle of the world to every archbishop and bishop who owes allegiance to the Pope, and is then sent to each parish priest, who, in turn, reads it to his people, urges that all unite in a common union of prayer for the betterment of humanity and world affairs. The days set aside for this universal petition are from the Feast of the Sacred Heart of Jesus, June 3rd to June 10th. All Catholic people throughout the world are asked to take part in these prayers and acts of reparation, so that God in His indulgence may look with pity and Fatherly love on our contrition and hasten to our aid. "O Lord, hear my prayer, O Lord, make haste to help me," writes the Royal Psalmist David. We today, as did David of old, should cry out to God to hear and help us. There is no hope of relief of change, if we are to allow ourselves to be carried away by the false tenets of those inimical to all order and religion. If religion is allowed to be torn from the hearts of men, women and children, if state-legislation can be overturned and in its place, chaos set up, if the solution for the financial difficulties can only be found in Godless and communistic tyranny, then must we admit that humanity's ideals are futile, and the reasoning of the learned, puerile. There will be a day when we shall all stand face to face with God. What will be our sentiment then? What excuses can we make for our folly, our disbelief, and our lack of trust in God. Scripture tells us that we are ever in the mind of God. Should we fear when God is our protection and helper? Dear friends, we shall find no peace or lasting harmony until all nations and all men shall acknowledge the supereminence of God's dominion over us, and of our total dependence upon Him, and until all adore Him and serve Him, and love Him. "Be ye not faithless, but believing."

—Richard J. O'Neill.

IRMA TIMES

H. W. LOVE, Prop.
A Good Advertising Medium and a
Reliable Newspaper on Oil Activities

WHAT PEOPLE READ

One of the most interesting points brought out by a research carried on by the University of Wisconsin of the newspapers in one of the biggest and richest farming counties of that state to find out what percentage of the people read newspapers and what parts of the paper they read most, is the fact that farmers spend more time reading daily and weekly newspapers than men living in towns do, and women read more than men do. The survey shows that more people read the wedding and the obituary than anything else in the weekly newspaper, and next in popularity comes the personal items and country correspondence and the want ads. It may be surprising to some to learn that the legal notices stand very high in "reader interest" and so do the proceedings. It is true, though. The research showed that these things are read by more people than some of the "news" parts of the paper.

One thing in connection with this research, which included 64 newspapers over the state besides those in the one county, is important to country town business men. Women do 80 per cent of the retail buying. It is the women who read the papers the most. So the merchant, who sells goods in which women are interested, is overlooking his best chance to get trade if he neglects to use the weekly newspaper regularly.

A very significant feature of the survey was the discovery that the advertising of one large store was regularly read by 76 per cent of the women of the county, which was a larger per cent read than some of the news features. It was also found that the larger the advertisement, the larger the number of persons who reported that they read it, proving that an advertiser gets just what he pays for: The more he spends for advertising, the more readers he gets.—Moorehead Country Press.

THE HOMICIDAL AUTO

Auto drivers, we say, be careful. Canadian drivers kill about twenty-five people every week. That is two hundred fatalities a year largely because you are careless. Then they injure and maim many more.

Do you realize that you have the power of two acres, three acres, or even four acres horses under the hood of your car? Do you appreciate the tremendous force your car engine and the great danger involved when your automobile is travelling at even a conservative thirty miles an hour? Many do not and so there are accidents along country roads and in town and city streets. A car overturned may mean a fatality, or, if lucky, only a broken bone.

Careless, reckless, inattentive drivers cause accidents, and all the reformers in the world won't restore life. Always remember when driving a car that "the gun is loaded."

Human nature seems to undergo a peculiar change when an individual seats himself (or herself) in the driver's seat. Commonplace courtesy and consideration for the other fellow is forgotten. The thought is usually centred on speed and money. Whizz past the other car on a hill in order to show the climbing qualities of your own "bug"; keep to the middle of the road and crowd the oncoming car into the ditch; hurtle along at a speed which would bring a gasp of astonishment and fear to grandfather. These are the main ambitions of most of the present day auto drivers.

And the result is an average of more than three deaths a day from auto accidents in Canada.—Ex.

WORLD WHEAT UP

SEVEN MILLION ACRES
The International Institute of Agriculture at Rome issued an estimate on May 26th giving the 1932 world wheat acreage at seven million acres greater than that of 1931. The Institute estimates the winter wheat area has decreased about four million acres but that the increase in spring wheat is expected to be about 11 million acres. Notable increases were: Argentina, 1,700,000; Australia, 1,000,000; Russia, 1,000,000; United States, 7,000,000.

ments then? What excuses can we make for our folly, our disbelief, and our lack of trust in God. Scripture tells us that we are ever in the mind of God. Should we fear when God is our protection and helper? Dear friends, we shall find no peace or lasting harmony until all nations and all men shall acknowledge the supereminence of God's dominion over us, and of our total dependence upon Him, and until all adore Him and serve Him, and love Him. "Be ye not faithless, but believing."

—Richard J. O'Neill.

The Wastebasket

Young Wife—"Oh, I'm so miserable. My husband has been out all evening, and I haven't the faintest idea where he is."

Experienced Friend—"My dear, you mustn't worry. You'd probably be twice as miserable if you did know."

Hubby—"Don't let the baby put that quarter in his mouth, there are germs on it."

Wife—"Nonsense! Germs could not live on the money you make."

"Gerald, dear, why were some women called Amazons?"

"Well, my dear, you remember the Amazon River has the largest mouth."

But she went out and slammed the door before he could say any more.

"So you were in the hospital three months! Must have been pretty sick!"

"No, pretty nurse."

Young Daughter: "What is all money, mother?"

Mother: "It's a man's cash surrender value, my dear."

Hotelkeeper: "I have rooms for fifty and seventy-five cents a night."

Guest: "What's the difference between them?"

Hotelkeeper: "Not much, only the seventy-five cent ones have rat-traps."

In the smoking room of the big hotel the Scot had been buying everyone with tales of the great deeds he had done.

"Well, now," said an Englishman at last, "suppose you tell us something you can't do, and by Jove, I'll undertake to do it myself."

"Thank ye," replied the Scot. I can pay my bill here."

A negro woman walked into an insurance office and asked whether they dealt in fire insurance.

"We do," a clerk replied. "What do you want insured?"

"Mah husband."

"Then you don't want fire insurance," smiled the clerk, as he reached for another application form. "What you want is a life insurance policy."

"Why do you call your new automobile 'she,' asked a citizen here of another yesterday. "Well, because it's the last word in the automobile line," he replied.

Recently a bashful young professional bachelor at Wainwright picked up an article-made of black elastic on the street which looked too small for a belt and entirely too large for a sleeve holder, and announced that the owner could have the same provided they could show him what use was made of the same. The next Sunday morning a handsome young lady called at his office and asked for the article. The bashful young man blushed deeply, but stepped into his private office and gingerly took it from a bookcase where he had placed it, and reappeared in the reception room and handed it to the young lady. She thanked him, slipped the web over her Bible and proceeded on her way to Sunday school.

"Would you please put out a little food for our cat while we are away?" said a lady here to a neighbor. "It will eat most anything, but don't put yourself out."

A soft answer may turn away wrath; says a careful observer, but any motorist can tell you that a soft tire won't do it.

"You seem to be a very careful and cautious driver," remarked a citizen here while riding with another in his car. "Yes," was the reply, "you see this car is almost paid for."

After a conference of medical men recently it was announced that they believed that getting the baby to sleep is hardest when she is about 18 years old.

Minister—"Do you say your prayers every night, Oswald?"

"No—some nights I don't want anything."

Little Rex trotted softly up to his mother's side and raised an appealing face.

"Mum," he said, "can Jean and I play at keeping a store?"

"Mother, who had a bad headache nodded."

"Yes," she said, "but you must be very quiet."

"Oh, yes, mum!" replied Rex eagerly. "We'll pretend we don't advertise."

Archibald Percival Reginald Earl decided one evening to call on his girl.

Together they talked of their "kith and their kin."

He said, "May I kiss you?" and she said, "You kin."

UNDULANT FEVER

Undulant Fever is a comparatively new disease. It is only in the sense that it is now recognised for what it is. The inhabitants of the island of Malta suffered for years from a disease known as Malta Fever; this disease was thought to be limited to that island. It was discovered some years ago that this disease was spread by their regular milk supply which came from goats.

Contagious abortion is unfortunately far from being uncommon in the herds of Canada. The disease germ which causes contagious abortion is the same germ which, when it gains entrance into the human body, causes undulant fever. There are several varieties of this germ, close relations as it were, one variety prefers to live in the cow, another in goats and still another in hogs. So it is that the germ responsible for a particular disease on the island of Malta and which is spread by the milk from goats is much the same as the germ causing contagious abortion in our country and responsible for undulant fever in man.

Undulant fever is contracted by man either through the use of raw milk from infected animals or by contact with infected animals which have the germ in their bodies.

Since the disease was recognised in this country, a number of cases have been reported. The disease varies in its severity. There is a fever, headache, loss of appetite, weakness and either constipation or diarrhoea. It resembles typhoid fever. There are certain laboratory tests which may be made; these tests are of great assistance to the doctor in making his diagnosis.

In this, as in the consideration of other diseases, when we know the cause and how the disease is spread, we naturally ask how it may be prevented. The answer to the question can be definite.

The germ is in the milk. Pasteurization destroys the germ. Milk which is pasteurized is safe—only milk which is pasteurized is safe and if all milk were pasteurized it would prevent undulant fever which is now spread by milk.

Those who work with animals or handle meat should know that the disease may be contracted by contact with infected animals. The wearing of gloves, the washing and proper attention given to breaks in the skin, the thorough washing of the hands are the measures of self-protection which such workers should use regularly in their interests.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

ITEMS OF LOCAL INTEREST

No matter how well organized a newspaper is, it is impossible for its reporters to gather all the local items of interest—someone of your acquaintance has taken a trip or relatives visiting you; a former citizen has returned on a visit—all of these small incidents and many more, are of interest to our readers.

As we wish to make this paper a more live, local newspaper, we would greatly appreciate receiving local items from our readers. By informing us of local news, you are doing us an appreciated service, as well as a service to our readers.

There is only one salvation for the country towns now that good roads are bringing the big city trading centres nearer to them. And that is advertising. No business can have any future in this modern age that does not advertise. The old time plan of waiting for people to come to you to find out what you've got on hand to sell is out of date and people will not take the time and trouble to look you up to see if you have something that they want. Besides it isn't necessary as they find they are deluged with advertising on every hand from those anxious to serve and get the business.

The business that keeps up with the open word announcements of their service, goods and prices. Otherwise they will be forgotten, and cobwebs accumulate on their door. Just imagine that all advertising in this country suddenly ceased altogether. People would soon be at a loss to do business for they would have little or no idea of goods or values. They would be doing business in the dark to a large extent. If you want to know how much advertising enters into all of your activities, no matter in what occupation you are engaged, just try getting along for a week without reading an advertisement of any kind.—Ex.

At a social party held by some young ladies here last week one of the girls showed the rest her new engagement ring. "Has it at last got around to you?" they asked in chorus as they recognised it.

HER FAT HAD TO GO

Activity Melted It

Exercise is the enemy of fat. If you are overburdened with superfluous flesh, call up reserves of energy to fight it. Do as this lady did.

"During the past six months, I have made steady improvement whilst taking Kruschen Salts. I have reduced 28 lbs. in weight during that period, and have benefited greatly from greater agility and liveliness—all directly attributable to that famous preparation."—Mrs. W. P.

You can take off fat with Kruschen Salts if you will take one-half teaspoon in hot water every morning before breakfast, modify your diet and exercise regularly.

While you are losing fat you will be gaining in energy—in endurance—in ambition. Your skin will grow clearer, and your eyes will sparkle with the good health that Kruschen brings. The old arm chair won't hold you any more—you'll want to be up and doing—you'll enjoy work and active recreation and you'll sleep like a top. You'll lose fat, and probably live years longer.

WORLD HAPPENINGS BRIEFLY TOLD

The Alberta Liberal convention, scheduled for June 16 to 18, has been postponed until October.

In a new effort to fill in the gaps between governmental income and outgo, the U.S. Senate voted an increase in income taxes.

The United States senate has voted to put a 100 per cent. tax on incomes earned through violations of state or federal laws.

Calgary, Alberta, was selected as the 1933 convention city of the United Commercial Travellers, jurisdiction of Washington, Oregon, and British Columbia.

Figures tabulated in the House of Commons, London, England, show migration between Great Britain and the Dominions was reversed for 1931, Australia sending most back.

Creation of a national library and museum was urged by Sir Robert Falconer, retired president of the University of Toronto, speaking at Ottawa before the Royal Society of Canada.

Viscount Hallahan, secretary of state for war in the British National Government, will represent the British bar at the annual meeting of the Canadian Bar Association at Calgary, in August.

Argentina, although eager to protect its meat, grain and wool markets in Great Britain, is unlikely to send an observer to the Imperial Economic Conference at Ottawa in July.

A warning that only immediate aid to Austria would avert a transfer of the League of Nations meeting in Paris, France.

Total Chinese casualties of 4,274 troops killed in the Shanghai war with Japanese were announced by the Nanking military headquarters. The announcement said 214 officers, and 4,060 men were killed, 677 officers and 1,153 men were wounded.

Dr. R. C. Wallace, president of the University of Alberta, was elected president of the National Conference of Canadian Universities. The term will be for two years. Dr. Wallace is also president of the Association of Canadian Clubs.

Preparing For Conference

Preparations for the Imperial Economic Conference are going forward. A sub-committee of the Dominion cabinet and four committees made up largely of departmental experts, have been constituted to arrange for the empire meeting.

Dr. Jacob Grimm of Germany says there is no language so well suited for the world-language as the English, it having the marvelous capacity of adapting itself to the beauties of other languages.

Raw cotton is the largest single item in the import trade of Japan.

Her: "This remedy has cured my rheumatism."

She: "What a pity. Now we shall not be able to tell when the weather is going to change."—Buen Humor, Madrid.

Speed Of Aeroplane

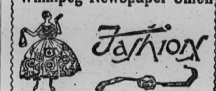

Man Can Now Travel By Plane Faster Than A Bullet

Man is able to travel today with the speed of a bullet. When Flight Lieutenant Stanforth of the British navy, winner of the 1931 Schneider trophy race, made a speed for the first lap of 416.2 miles an hour, he actually went faster than the maximum speed of a bullet from a British service revolver.

This bullet has a muzzle velocity of 600 feet a second, or 409.09 miles an hour. Therefore, if a revolver were fired just as the flyer passed, in theory the bullet might be expected to travel along beside the ship, and the flyer might feel safe in reaching out and touching it, or even putting it in his pocket while it was still proceeding at full speed.

The flyer's speed might also be said to have been faster than the average speed of a Springfield rifle bullet, says Popular Mechanics Magazine. Such a missile leaves the muzzle at 2,653 feet a second, equal to 1,808.9 miles an hour, and its average speed over its effective range of 1,000 yards is 1,270 miles an hour. However, after the bullet has covered its effective range, it floats on and on, until slowed down by air resistance, it drops to the ground spent. At the end of its flight, it has very little speed, and if the average is taken, it is found to be less than for the plane at top speed. The bullet would win, however, if the plane's speed were averaged in the same way.

DECIDEDLY SMART DAY DRESS FOR MATRONS OR ANYONE WHOSE FIGURE NEEDS SLIMMING

You'll love this dress. It is printed crepe silk in black and white. It has the lines which have been proven by experience are becoming to the heavier figure. It also has the new modish sleeve flounce and is quite one-sided about its white crepe rever, that provides so much smartness and charm.

It is especially fascinating in navy blue plain crepe silk with white trim. Style No. 672 is designed for sizes 36, 38, 40, 42, 44 and 46 inches bust. Size 36 requires 3½ yards of 39-inch material with ½ yard of 39-inch contrasting.

For summer, novelty cottons with a woolen aspect, linen and tub silks are ideally suited to this model. Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Re Credit Extensions

Saskatchewan Government Provides For Temporary Curtailment Of Remedies In View Of Conditions

The following information is published by the authority of the Hon. W. C. Buckle, Minister of Agriculture of the Government of the Province of Saskatchewan.

Taxes: Title to land sold for taxes will not be issued until June 15th, 1932, unless the municipality or council has exempted the land from the provision of the Act passed for the protection of land owners. Under the new Act authorizing the postponement of issue of Certificate of Title to Land for Taxes, any owner of land lying within a municipality sold for taxes in 1929, or in any preceding year, in respect of which a certificate of title has not been issued, may make application to the council of the municipality within which the land lies for certificate postponing the issue of certificate of title to the land until the thirtieth day of November, 1932. If the council fails or refuses to grant the application and to issue the certificate of postponement, the owner may apply to a judge of the district court for the required certificate, and the decision of the judge in the matter shall be final. If you are unable to take an appeal before a judge of the district court, you may ask the Debt Adjustment Commissioner for assistance.

If your land has been sold for taxes in the year 1929, or any preceding year, you are advised to consult the Secretary-Treasurer of your Rural Municipality, or Council, without delay, because after June 15th, if a certificate is not issued to you, title to your land may pass to the purchaser of the tax sale certificate.

The following real and personal property of an execution debtor and his family is free from seizure by virtue of all writs of execution, namely:

1. The necessary and ordinary clothing of himself and his family.
2. Furniture, household furnishings and dairy utensils, to the extent of five hundred dollars.
3. The necessary food for the family of the execution debtor during six months, which may include grain, flour, vegetables and meat either prepared for use or on foot.
4. Four oxen, horses or mules, or any four of them, six cows, six sheep, four pigs, and fifty domestic fowls besides the animals the execution debtor may have chosen to keep for food purposes, and food for the same for the months of November, December, January, February, March and April, or for such of these months or portions thereof as may follow the date of seizure provided such seizure is made between the first day of August and the thirtieth day of April next ensuing.
5. The harness necessary for four animals, one wagon or two carts, one mow or cradle and scythe, one breaking plough, one cross plough, one set of harrows, one horse rake, one sewing machine, one reaper or binder, one set of sleighs and one seed drill.
6. The books of a professional man.
7. The tools and necessary implements to the extent of two hundred dollars used by the execution debtor in the practice of his trade or profession.
8. Seed grain sufficient to sow all his land under cultivation not exceeding one hundred and sixty acres, at the rate of two bushels per acre, defendant to have choice of seed and fourteen bushels of potatoes for planting.
9. The homestead, provided the same be not more than one hundred and sixty acres; in case it be more the surplus may be sold subject to any lien or encumbrance thereon.
10. The house and buildings occupied by the execution debtor and also the lot or lots on which the same are situated according to the same plan of the same, to the extent of three thousand dollars.

In the event of a chattel mortgage having been given covering horses, machinery, etc., the debtor is still protected under the Exemptions Act for the chattels mentioned above. Should the subject matter of the judgment upon which an execution is issued, represent the amount due on machinery, horses, etc., then such articles are not exempt.

In view of prevailing conditions, the Government of the Province of Saskatchewan deemed it necessary to provide for the temporary curtailment of remedies for the enforcement of payment of certain debts and therefore enacted the Debt Adjustment Act, 1932. This Act extends protection to residents of the province who are actual residents of and personally own the property, or the principal part of whose income is derived from farming operations in the province or urban residents who own their residence, or who are purchasers of their residence under an agreement for sale, or who are retail merchants and includes the executors or administrators of deceased residents if the beneficiaries or any of them are residing in the province.

This Act is for the purpose of assisting debtors who are having difficulties with their creditors. The Commissioner, who administers the Act, endeavours to settle such difficulties but in the event of it being impossible to arrive at an amicable settlement, the Commissioner is authorized to issue a certificate which would stop any legal action brought by the creditor leading to the seizure of chattels under chattel mortgage, foreclosure of mortgages, and cancellation of agreements for sale, also, any possession of articles bought under conditional sale agreements and lien notes. The Act, however, does not apply to actions for the recovery of money or the enforcement of agreements for sale, etc., where final order has not been issued by the court.

In the event of a certificate being issued, the resident must comply with the provisions of the Act as to the disposition of his property. The Commissioner of the Debt Adjustment Act is authorized to act as Custodian and Trustee of the property of a debtor who is a bankrupt, or a debtor under the Bankruptcy Act and if any farmer is so badly involved that there are no prospects of his being able to pay his debts, then the Commissioner can arrange for bankruptcy proceedings. The farmer is required to make a statement of his property and the care of the cash disbursements, but no fees are charged for services of the department.

The rights of mortgages under crop leases are also restricted this year in that no lease shall affect more than one-third of the crop unless the mortgagee has purchased the seed and pays the cost of threshing and a share of the cost of binder twine provided the mortgagee has the crop to which he is entitled under the mortgage. A farmer who is a lessee, purchaser or mortgagee under any lease, agreement of sale or mortgage, may in the year 1932, out of the share of the crop belonging to the lessor, vendor or mortgagee, pay one year's taxes upon the land on which the crop is grown, and in such case, upon production of the receipt of the municipality for such payment, the lessor, vendor or mortgagee shall be entitled only to his one-third share of the crop less the amount shown upon such receipt.

Seizures under any lien agreement, or conditional sale agreement under the Farm Implements Act, or the Conditional Sales Act, must be made by the sheriff of the judicial district within which the seizure is to be made, or under his direction. Consequently, this applies to articles bought on the time payment plan such as farm machinery, automobiles, washing machines, cream separators, horses and cattle.

The vendor's right to recovery of unpaid purchase money on articles sold after April 13th, 1932, on credit, or partly for cash and partly on credit, and the vendor has a lien thereon, is restricted to his lien upon the articles sold and his right of repossession of such articles unless in the case of articles sold on credit, upon an entire consideration. In other words, if you buy a plow on the time payment plan and cannot meet the payments the vendor can repossess the plow, but cannot take action against you for the unpaid balance.

The Debt Adjustment Act does not afford protection to urban dwellers who live in rented houses or apartments.

Information regarding the rights and remedies of debtors will be cheerfully given by Commissioner, Debt Adjustment Act, Regina.

Fermentation is involved in the preparation of all kinds of cheese.

Argentina will have a national highway.

Disabilities Of Government

Administrations Face Great Difficulties Under Economic Stress

There was a time, not long ago, when democratic governments faced simple issues. So long as the problems before electorates had to do mainly with extension of the suffrage, with the removal of religious disabilities and with the by-products of inherited privilege, the voter was confronted with a limited number of straightforward questions, to which, by marking his ballot appropriately, he replied with a plain "yes" or "no." The questions themselves were within his comprehension; his answers could, with no great difficulty, be translated into law.

Today this is no longer so. The most important questions, which governments and the peoples who support them now face, are not political but economic. They are concerned, not with the suffrage, but with the selection of industry; not with religious disabilities, but with the gold standard; not with inherited privilege, but with restrictions upon the freedom of trade. Anything that is done with reference to these problems involves intricate and detailed questions of administration. Whatever decisions are made and carried out, the repercussions to them are complex and affect every detail of the national life. The most important consequences of any policy may well prove to be, not those that were foreseen by the framers of policy but those that were unexpected.

The successful working of democratic institutions is thus infinitely more difficult at present, alike for the voters and their representatives, than at any time since democratic government began. A system that functioned with comparative ease and smoothness in the 19th century, now functions under great strain in the 20th. In a number of western countries, young and old, in Europe and elsewhere, democracy has been succeeded by dictatorship. Democratic institutions are still intact in many countries. But even in certain of these, it is becoming increasingly clear that legislative machinery, designed for the formulation of public opinion in normal times on issues not of an emergency character, gives insufficient scope to leadership in a great economic crisis.—"Monthly Review," Bank of Nova Scotia.

Recipes For This Week

(By Betty Barclay)

COFFEE BARAVIAN CREAM

One tablespoon gelatine, ¼ cup cold water, 1 pt. whipping cream, ½ cup sugar, ½ cup strong boiled coffee, 1 teaspoon vanilla, 1 tablespoon lemon juice, a pinch of salt. Soak gelatine in cold water 5 minutes. Dissolve in hot coffee, then add sugar. Set bowl containing mixture in pan of cold water and stir until it begins to thicken. Add cream, beaten until stiff, and flavoring. Turn into wet mold and chill.

JELLIED TONGUE

Wash and scrub a beef tongue in salted water and boil until tender. Remove skin and place the tongue in a saucepan. Add two onions, one stalk of celery, four cloves, and salt and pepper. Cover with liquor in which tongue was boiled. Add one blade of mace, one bunch of thyme, one bunch of parsley and one teaspoon sugar. Simmer for two hours. Remove tongue. For each pint of the liquor add one tablespoon of gelatine that has been soaked in cold water. Stir for two minutes over very low flame. Strain and pour over tongue. Chill thoroughly, garnish with watercress, and serve.

Used Right Bait

A widow, the owner of a small shop, was usually escorted home by an admirer who carried the cash-bag containing the day's takings. It was always heavy.

"You must be doing well," said the man frequently.

"Oh, ay," the widow would reply. "It's a good business!"

But she did not disclose the fact that besides the moderate takings the bag contained a few counter-weights. The canny lover only discovered that fact after marriage.

When vegetables are cooked, 50 per cent. of the mineral content is transferred to the cooking water, and therefore this water is useful in soups, gravies and other foods.

The only way in which a man may indulge in his country is to step up to the altar and say: "I will."

Magnesium powder is used for fireworks and illumination bombs.

Wheat Quotas

Saskatchewan Producers Submit Findings For Presentation To Imperial Conference

Care in deciding on a policy of import quotas in wheat for Britain at the coming Imperial Conference is urged by Saskatchewan producers.

Neither for or against wheat quotas, recommendations to the provincial government from the recent conference of producers in connection with the Imperial Conference asked "careful consideration" by Canada's delegates on this point.

The findings of Saskatchewan's producers were announced by Hon. M. A. MacPherson, Provincial Treasurer. Armed with the information received from agricultural interests, the Saskatchewan government will meet representatives of other western governments for the purpose of drawing up western Canada's brief for the guidance of Canada's delegates to the Imperial Conference.

Full proposals of the committee were: (1) An investigation of the possibilities of a stabilizing Empire currency. (2) The encouragement of a maximum exchange of Canadian agricultural products for British manufactured goods. (3) The safeguarding of the home market for agricultural products so far as is consistent with satisfactory inter-empire trade relations. (4) A continuance of the Empire marketing board. (5) Encouragement of the use of the port of Churchill and the Hudson Bay Railway. (6) Careful consideration of any proposal for the establishment of import quotas for wheat. (7) Extension of the same privileges and consideration to Canadian cattle as accorded to other parts of the Empire. (8) Consideration of elimination of export bonuses in the dairy industry, or in the alternative, provisions to offset the effects of same. (9) Benefits to be accrued from the development of a trade in bacon, hams, pork and pork products.

Long Feud Ended

Peace Restored Between Scotch Clans After 187 Years

The Campbells and MacLeans are at peace after a feud of 187 years.

A telegram from the Duke of Argyll, chief of the Clan Campbell, to Col. Sir Fitzroy MacLean, head of the MacLeans, who celebrated his 97th birthday on the Isle of Mull, Scotland, brought about the reconciliation.

"The Campbells and the MacLeans are now friends again. The sword is buried forever. Colonel MacLean said after receiving the telegram. The feud started in 1745 when the chief of the MacLean Clan suspected his wife of intrigue with one of the Clans Campbell."

Penalty Was Heavy

Documents recently found in Scotland show that in 1400 the penalty for the killing of salmon "from the feast of the Assumption of the Virgin till Martinmas" was a fine equivalent to 325 for the first offence, and death for the third offence.

Canadian production of tobacco in 1931 totalled 51,300,000 pounds valued at \$7,177,540.

"I would like to give you a good reference but you were never punctual with the meals."

"Well, say she prepared the meals with as much punctuality as she received her wages."—Wahre Jakob, Berlin.

THE HOUSE OF DREAMS-COME-TRUE

— BY —
MARGARET FIEDLER

Author of
"The Splendid Folly," "The Hermit of Hodder & Stoughton, Ltd., London."

CHAPTER XXII—Continued.

Burke fitted the key into the lock of the door and turned it sulkily. "You little thing! I was only teasing you," he said. "Do you mean you're really as frightened as all that?" "What people may say? I thought you were about minding gossip of ill-natured scandal-mongers."

Jean grasped eagerly at the excuse. It would serve to hide the real motive of her impulsive action.

"No woman can afford to ignore scandal," she answered quickly. "After all, a woman's happiness depends mostly on her reputation."

Burke's eyes narrowed suddenly. He looked at her speculatively, as though her words had suggested a new train of thought, but he made no comment. Somewhat abstractedly he opened the door and allowed her to pass out and down the stairs. Outside the door of the inn they found the mare and dog-cart in charge of an ostler.

"The mare's foot's rather badly torn, sir," volunteered the man, "but the blacksmith thinks she'll travel all right. Far to go, sir?"

"Nine or ten miles," responded Burke laconically.

He was curiously silent on the way home. It was as though the chain of reasoning started by Jean's comment on the relation scandal bears to a woman's happiness still absorbed him. His brows were knit together morosely.

Jean supposed he was probably reproaching himself for his conduct that afternoon. After all, she reflected, he was normally a man of decent instincts, and though the flood-tide of his passion had swept him into taking advantage of the circumstances which had flung them together in the solitude of the little inn, he would be the first to agree, when in a less lawless frame of mind, that his conduct had been unpardonable. Although, even from that, one could not premise that he would not be equally culpable another time!

Blaise had proved painfully correct in his estimate of the dangers attaching

Ty Lydia E. Pinkham's Vegetable Compound

Wanted to die... she felt so blue and wretched! Don't let cramps ruin your good times. Lydia E. Pinkham's Vegetable Compound gives you relief.

W. N. U. 3848

ing to unexploded bombs. Jean admitted it to herself ruefully. And she was honest enough also to admit that, with his warning ringing in her ears and with the memory of what had happened in the rose-garden to illumine it, she herself was not altogether clear of blame for the incidents of the afternoon.

She had played with Burke, even encouraged him to a certain extent, allowing him to be in her company far more frequently than was altogether wise, considering the circumstance of his hot-headed love for her.

It was somewhat of a mental strain of surprise that she found herself seeking for excuses for his behaviour—actually trying to supply adequate reasons why she should overlook it!

His brooding, sulky silence as he drove along, mile after mile, was not without its appeal to the inherent femininity of her. He did not try to excuse or palliate his conduct, made no attempt to sue for forgiveness. He loved her and he had let her see it; manlike, he had taken what the opportunity offered. And she didn't suppose he regretted it.

The faintest smile twitched the corners of her lips. Burke was not the type of man to regret an unlawful kiss or two!

She was conscious that—as usual, where he was concerned—her virtuous indignation was oozing away in the most discreditable and hopeless fashion. There was an audacious charm about the man, an attractiveness that would not be denied in the hot-headed way he went, all out, for what he wanted.

Other women besides Jean had found it equally difficult to resist. His sheer virility, with its splendid disregard for other people's claims and its conscious belief that the battle should assuredly be to the strong, earned him forgiveness where, for misdeeds not half so flagrant, a less imperious sinner would have been promptly shown the door.

But no woman—not even the women to whom he had made love without excuse of loving—had ever shown Burke the door or given him the kind of treatment which he had thoroughly well merited twenty times over. And Jean was no exception to the rule.

At least he had some genuine claim on her forgiveness—the claim of a love which had swept through the very being like a flame, the fierce passion of a man to whom love means adoration, worship—above all, possession.

And what woman can ever long remain angry with a man who loves her and whose very offence is the outcome of the overmastering quality of that love? Very few, and certainly none who was so very much a woman, so essentially feminine as Jean.

It was in a very small way, which she endeavoured to make airily distant, that she at last broke the silence which had reigned for the last six miles or so.

"I suppose you shall have to forgive me—more or less. One can't exactly quarrel with one's next door neighbour."

Burke smiled grimly. "Can't one?"

"Well, there's Judith to be considered."

A rather curious expression came into his eyes. "Yes," he agreed. "There's Judith to be considered. There was a hint of irony in the dry tones.

"It would complicate matters if I were not on speaking terms with her brother," pursued Jean.

She waited for his answer, but none came. The threatened possibility contained in her speech seemed to have fallen on deaf ears, and the silence seemed likely to continue indefinitely. Jean prompted him gently.

"You might, at least, say you are sorry for—"

"For kissing you?"—swiftly. "Yes—flushing a little."

"But I'm not. Kissing you!"—with deliberation—"is one of the things I shall never regret. When I come to make my peace with Heaven and repent in sackcloth and ashes for my sins of omission and commission, I shan't include this afternoon in the list. I assure you. It was worth it—"

"I pay for it afterwards in hell!"

He was silent a moment. Then: "But I'll promise you one thing, I'll never kiss you again till you give me your lips yourself."

Jean smiled at the characteristic speech. She supposed this was as near an apology as Burke would ever get.

"That's all right, then," she replied composedly. "Because I shall never do that."

He flicked the chestnut lightly with the whip. "I think you will," he said. "I think"—he looked at her somewhat enigmatically—"that you will give me everything I want—some day."

CHAPTER XXIII.

On the Side Of the Angels
Throughout the day following that

of the expedition to Dartmoor, Nick seemed determined to keep out of Jean's way. It was as though he feared she might force some confidence from him that he was loath to give, and in consequence, deliberately avoided being alone with her.

On the second day, however, as luck would have it, she encountered him in the corridor just outside her own sitting-room. He was striding blindly along, obviously not heeding where he was going, and had almost collided with her before he realized that she was there.

He jerked himself backwards. "I beg your pardon," he muttered, still without looking at her, and made as though to pass on.

Jean checked him with a hand on his sleeve. "She had not watched the dogged sullenness of his face throughout yesterday to no purpose, and now, as her swift gaze searched it anew, she was convinced that something fresh had occurred to stir him. It was impossible for Jean to see a friend in trouble without wanting to 'stand by.'"

"Nick, old thing, what's wrong?" she asked.

He stared at her unseeing. "Wrong?" he muttered. "Wrong?"

"Yes, come in here and let's talk it out—whatever it is." With gentle insistence she drew him into her sitting-room. "Now," she said, when he had established him in an easy-chair by the open window and herself in another, "what's gone wrong? Are you still boiling over about that trick Sir Adrian played on Claire the day of the picnic?"

She spoke lightly—more lightly than the occasion warranted—of set purpose, hoping to reduce the tension under which Nick was obviously labouring. His face hurt her. The familiar lazy insolence which was half its charm was blotted out of it by some heavy cloud tragic significance. He looked as though he had not slept for days, and his eyes, the gaily burnt out of them by pain, seemed sunken in his head.

He stared at her blankly for a moment. Then he seemed to awaken to the meaning of her question. (To Be Continued.)

Care Of Veterans

Funds Available For Soldiers Who Suffered In German Prison Camps

Reports have reached veterans' organizations in various centres that there is no money in the reparations treasury for Canadian veterans who suffered ill-treatment in German prison camps, whereas the sum of \$300,000 was granted to naturalized Armenians who lost relatives and property in the Turkish massacres. It was explained in the secretary of state department, that these reports are not accurate. A vote of \$500,000 was put in the estimates last session to look after the Canadian veterans who suffered in German prison camps. That amount is available.

Under the Lausanne treaty it was arranged by Great Britain, France, Italy and Japan that the 5,000,000 in Turkish pounds, credit of Turkey in Germany, be used to reimburse the Armenians who suffered in the massacre. A commission sat in Paris and adjudicated on these claims.

Claims to the total of over \$8,000,000 were filed at Ottawa by Armenians in Canada who had become British subjects and who had lost property, fathers or mothers or wives or children in the massacre. Of these claims, the only ones to be entertained by the Paris commission were those whose wives or children had been lost, in which cases certain solatia were granted.

The remainder of the claims were turned back to Ottawa, and for years the government struggled with the problem as to what should be done with them. It was finally decided to award these claimants a total of \$300,000 taken out of the full vote of \$3,200,000.

Douglas' Egyptian Liniment is especially recommended for spider, or infection of cow's test. Invaluable also in cases of spavins, curbs and splints.

A New War Weapon

Machine-Gun Rifle Shoots From 400 To 500 Bullets a Minute

Machine-gun rifle which may replace the present type of hand rifle used by the British army, has been tested satisfactorily. It shoots 400 to 450 bullets a minute and can be fired from the shoulder like the ordinary rifle from a kneeling position or at any other necessary. The weight is approximately a few pounds more than the ordinary rifle, but half that of the machine gun now used.

Truck Competition In Britain
Trucks and bus competition is estimated to have cost a loss of \$80,000, 000 in revenue to British railways last year.

It does pay to "ROLL YOUR OWN"

THE RHYMING OPTIMIST

By Aline Michaelis

YOUR MIRRORRED SELF

What do you see in your "yellow men,
Those whom you daily meet,
And those, and those, and those,
Those whom you pass in the street?"

Bitterness, jealousy, pride and greed,
Folly and fierce disdain;
Are these the passions their looks reveal,
Hate, and its cruel train?

Glancing there, can you read instead
Purity, love and trust,
Finding in every stranger's eyes
Something serene and just?

What do you see in your fellow man?
Ere you reply, beware!
Part of the man you are yourself
Waits for you mirrored there!

Hard To Grow Trees

Climate Of The Earth, On The Whole
Not Favorable To Forest Growth
Most people do not realize that the climate of the earth as a whole is unfavorable to forest growth. Eighty per cent. of the land on this earth is too high, or too dry, or too cold to support a commercial forest. Forests really have a hard time to maintain themselves in this world. You wouldn't think that, would you, by the way we treat them? It is really only on comparatively narrow coastal strips of the continents, and on oceanic islands, where rainfall is high and the temperature in the growing period is relatively high, that forests have an easy time in maintaining themselves. On the greater portion of the earth it is nip and tuck whether the forests or grasslands and deserts will prevail.—Dr. Clifton D. Howe, University Of Toronto.

Unveils Book Of Remembrance
Prince George, on opening the St. Saviour's Memorial Chapel in North Cathedral, "unveiled" a "Book of Remembrance" containing the names of 15,155 Norfolk men and 13 women, including Nurse Cavell, who lost their lives in the war.

Britain's rayon business continues to increase.

for NEURALGIA
A good application of Minard's, according to directions, "finds the spot." You'll get wonderful relief!

MINARD'S
"KING OF PAIN"
LINIMENT

A laboratory finds that in nailing the handles of implements blunt-pointed nails are less likely to split the wood than sharp nails are.

"You shouldn't be dissatisfied. Look at all you have."

"Yes, but look at all I haven't."

Passengers Drop From Airplane In Chairs

Demonstration Of New Method Ensuring Safety Was A Success

Four men were parachuted from an airplane in a demonstration of a new method to release passengers from distressed ships. All landed safely. They had cleared the ship in five seconds, Harry Trusty, a designing engineer, calculated.

In a cabin monoplane, 4,000 feet over the airport, at Santa Ana, California, the pilot pulled a lever. Two of the passengers were swung outward through doors in the fuselage and scudded off into the air, while parachutes blossomed above their heads. The pilot pulled a second lever. The other two passengers swung through two more doors, and the parachutes automatically took them in tow. All four landed sitting on the same seats they occupied in the plane.

Mr. Trusty describes the device: The doors in the sides of the fuselage open automatically when the pilot pulls the lever. Davis swing outward with each seat and an automatic trip drops the seat once it has swung clear of the ship. The chutes are carried under the seats. A metal band slips around the waist of the passenger as the device begins to operate to discourage panic.

A Remedy For Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Electric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

"Forward To The Land"

New Scheme For Canada Is An Improved Idea

Canada proposes a new unemployment relief plan that will bring idle labor and idle land together. No more launching of public works to give jobs to the jobless, but instead, Dominion provinces and municipalities would share in a colonization scheme for men willing to undertake an agricultural life. From \$400 to \$600 would be advanced to the new farmer, who would be aided and directed by a commission. If the provinces agree the Federal Government will start the plan immediately. This isn't the familiar "back to the land" scheme, says Labor Commissioner Gordon, but a "forward to the land" scheme—an improved idea with an improved promise of success.

A Good Definition
Discussing Irish politics with friends after the close of the music festival, H. Plunkett Greene, adjudicator par excellence, and himself a son of Erin, defined Eamon de Valera, government leader in the Free State, as "a Spanish onion in an Irish stew."

The greatest fault is to be conscious of none.

Little Helps For This Week

"Your heavenly Father knoweth that ye have need of all these things."—Matthew vi. 32.

The dear God hears and pities all; He knoweth all our wants; And what we blindly ask of Him, His love withholds or grants.

And so 't sometimes think our prayers Might well be merged in one; And nest and perch, and hearth and church.

Repeat, "Thy will be done!"—John Greenleaf Whittier.

What Christ's prayer was, all true prayer must be; you must pray with the great prayer in sight. You must feel the mountains above you while you work upon your little garden.

Little by little your special wishes and the eternal will of God will grow in harmony with one another; all conflict will die away, and the great spiritual landscape from horizon to horizon will be but one.—Lucy Larcom.

Oldest Graduate

Dr. Lovett Oldest Living Medical Graduate Of McGill University

Dr. William Lovett, who celebrated his 90th birthday at Paris, Ont., recently, is the oldest living medical graduate of McGill University, Montreal.

He graduated in 1870 and received the second diploma issued by the Ontario Medical Council. The late Dr. J. Dunsmore of Mitchell received diploma number one. Dr. Lovett's entire medical practice was carried on in the town of Ayr, Ont. from 1870 to 1907, when he retired on account of illness.

Main Street

Mr. Steve has been spending a few days in Edgerton.

Miss B. Coffin, nurse in training in the Royal Alexandra hospital, Edmonton, is spending her vacation with her parents at Irma.

Watch for change in train service commencing next Monday. New train card appears in this issue.

A good crowd turned out to assist in clearing up the groves at the Irma cemetery Wednesday afternoon.

Irma Ladies Aid met at the home of Mrs. A. E. Blakley Thursday afternoon.

Mr. and Mrs. Skiles spent the first of the week at Riley visiting her parents.

Mr. and Mrs. Hutchinson and Mrs. Hutchinson's parents, Mr. and Mrs. Whynter motored to Saskatchewan Saturday, returning Wednesday evening.

Be sure and plan your holidays so as to be in Irma for the big 12th of July Sports.

Mr. and Mrs. Moon received word from the coast that Mr. and Mrs. Bert Elford are the proud parents of a big baby boy.

C. N. RAILWAY

TIME TABLE CHANGES
Train No. 77 leaves Irma at 4 p.m. and arrives at Edmonton 7:40 p.m.

Train No. 78 leaves Edmonton at 8:30 and arrives at Irma 12 Noon.

Train No. 1 going West passes Irma at 7:40 p.m.

Trains No. 2 going East passes Irma at 11 a.m.

Trains No. 1 and 2 only stop for through passengers.

J. R. Whyte, Agent.

12th July CELEBRATION

The Royal Orange County Lodge of County Alexandra No. C70 will celebrate the 12th July at Irma this year.

The Local L. O. L. No. 2066 together with Local L. O. B. E. have undertaken to put this through in the usual effective manner for which the Orange Association is well known.

As this is the annual Temperance meeting, Mrs. Locke, the Temperance secretary will have charge of the meeting.

Cars will meet at the church at 2:30 and all the friends and members are heartily invited to this very interesting meeting.

The executive will arrange a full program of sports and will bring in speakers of well known ability, while the knowledge that the eats and refreshments will be in the hands of the local Ladies' Lodge will ensure that there will be nothing wanting in this department. We appeal to all to rally around and make this 12th of July a howling success.

We assure them that they will be repaid by putting over one of the most enjoyable days that has been seen in this district. For further particulars see posters.

Miss Georgia Englehard, daughter of New York lawyer, is busy scaling peaks and establishing climbing records around Lake Louise. She climbed six peaks up to 12,000 feet in height around Lake O'Hara in one week. In addition to these exploits she has made a three weeks pack train trip.

Adding to an imposing list of winnings gained at leading exhibitions over the prairie circuit earlier in the season, the championship Holstein herd of the Canadian Pacific Railway supply at Strathmore Farm gathered ten firsts, five seconds, five thirds at the Vancouver Fair, made a clean sweep in the ball classes with junior and reserve senior championships in female classes and is group champion won first for exhibitors, first for young herd, first for progeny of cow, second for breeders herd and second in get of sire.

J. J. MALONEY TO SPEAK AGAIN IN IRMA

J. J. Maloney will address a meeting to be held in Kiefer's Hall on Monday, June 20th at 8 p.m. This will probably be the last chance of hearing this great speaker for some time. Mr. Maloney is back for every day in June, and will be leaving on a tour in the Peace River district in July. Admission 25c.

IRMA REBEKAH LODGE No. 87

HOLDING LAWN SOCIAL

The Irma Rebekah Lodge No. 87 are holding their Lawn Social on Wednesday afternoon, June 15th at the home of Mr. and Mrs. Martin Knudson. Sports of all kinds for young and old, also ball games.

Chicken supper will be served from 5 o'clock, also ice cream. Supper 25c. Come and have a good time.

TENDERS

Tenders will be received by the undersigned up to 25th of June for cement foundation to be placed under the present Lewisville Schoolhouse. School building is 20 by 28, porch 6 x 10. Footings to be one foot in ground. Eight inch walls. Cement to be supplied by School District. Contractor to do all hauling.

The lowest or any tender not necessarily accepted.

A separate tender is also called for Kalsomining interior of the above structure.

J. S. Armstrong, Sec.-Treas.

Lewisville S. D. No. 3041, Fabyan, Alberta.

To "WHOM IT MAY CONCERN"

NOTICE is hereby given under Section 33 of the Domestic Animals Act (M. D.) that One Black Mulley Bull with a few white spots, no visible brand, about 10 months old. Was impounded in the pound kept by the undersigned, located on the N. E. of 9-46-8-4 with on Sunday, 5th day of June, 1932, and the said animal will be offered for sale sooner than eleven days, and not later than fifteen days after the date of such impoundment, unless same is released by payment of all lawful fees and costs under the provisions of the Domestic Animals Act. M.D.).

E. J. Darling, Poundkeeper.

Fabyan.

Mrs. B. Williamson has returned from the hospital and is doing very well, only a little weak.

Mr. Geo. Madden was a visitor to the city the first of the week on business.

Mr. Tebo Sirko of the Blacksmith staff has gone to Drumheller to visit his family.

Bill Santee is again out with a big gang south of town fixing up the roads.

Quite a number of our Fabyan lads were over to the Stampede and reported a very good time even if the weather man did not behave very well.

Kansas has nothing on Alberta today we saw Dick Headen threshing oats.

IS SEVENTY TWO YEARS OLD

Last Monday, June 6th, a number of town and country friends gathered at the home of Mrs. Eldon Fenton to help celebrate a happy event.

Mrs. J. Smart was the guest of honor, the occasion being her seventy second birthday. After a pleasant afternoon, a dainty lunch was served by the hostess assisted by near friends, and we must not forget to mention the birthday cake with its many candles. When the ladies left for home they all extended to Mrs. Smart once more their hearty good wishes for health and happiness.

IRMA W. M. S.

The June meeting of Irma Woman's Missionary Society will be held at the home of Mrs. James Fenton in Sunny Brae district on Thursday next, June 16th.

At this meeting the report of the Alberta Presbytery will be given by Mrs. Reeds and Mrs. Geeson.

As this is the annual Temperance meeting, Mrs. Locke, the Temperance secretary will have charge of the meeting.

Cars will meet at the church at 2:30 and all the friends and members are heartily invited to this very interesting meeting.

Here and There

Honorable George, aged ten, and honorable John, aged 9 sons of Canada's trading hero, Lord Rossmore and descendants of a famous British Admiral, recently travelled 1,000 miles from Port Saskatchewan, Alta., to England, to enter a public school in the Old Country.

They took the long journey via the Canadian Pacific lines and by S.S. Montclair. C. P. R. officials looked after them on the long trip.

Rt. Hon. L. C. M. S. Amery, secretary for the Dominions in the Baldwin administration, who arrived in Canada on the Express of Australia recently travelled straight across the Dominion by Trans-Canada Limited, crack Canadian Pacific flyer, for Banff and Lake Louise where he reached his objective and nameake, 11,000-foot peak which he will climb.

Adding to an imposing list of winnings gained at leading exhibitions over the prairie circuit earlier in the season, the championship Holstein herd of the Canadian Pacific Railway supply at Strathmore Farm gathered ten firsts, five seconds, five thirds at the Vancouver Fair, made a clean sweep in the ball classes with junior and reserve senior championships in female classes and is group champion won first for exhibitors, first for young herd, first for progeny of cow, second for breeders herd and second in get of sire.

Judges of piping and dancing at the forthcoming Banff Highland Gathering and Scottish music festival to be held August 30, September 2 have been announced. They are, Colonel Alexander Fraser, Donald E. MacPherson, Murdoch McLeod, George Murray, all of Toronto; William Ferguson, of North Bay; Neil Sutherland, of Regina; and Alexander Hosie of Medicine Hat. Coincident with the Festival, the Dominion Field and Track championships will be decided at Banff Labor Day.

Output of creamery butter in Saskatchewan for the first six months of the year is exactly 45% greater than for the similar period in 1928, according to a report of the dairy branch of the provincial department of Agriculture. In the first half of 1928 it was 6,125,041 as against 4,215,349 pounds in the first half of 1929.

The Canadian Pacific Railway will be represented at Fall Exhibitions in Eastern Canada this year at Toronto, Quebec, Sherbrooke, Saint John and Fredericton by models of the system's scenic, hotel, oriental and general details of the company's travel, express and telegraph activities. There will be a special building devoted to C. P. R. matters at the Toronto Exhibition, with activities dealing with other parts of the country will be shown at other cities. A number of special trains will be run to these Exhibitions.

Published by THE CHRISTIAN SCIENCE PUBLISHING SOCIETY

Boston, MASSACHUSETTS, U. S. A.

Is it you who find the daily good news of the world from its 120 special writers, as well as departments devoted to women's and children's interests, sports, music, education, radio, etc. You will be glad to welcome into your home as faithful an advocate of peace and prohibition. And don't miss these our dog and the Sunday and the other features.

The CHRISTIAN SCIENCE MONITOR, Back Bay Station, Boston, Mass.

Please send me a six weeks' trial subscription. I enclose one dollar (\$1).
